1 - SG5010 Servo Motor
2 - SG90 Servo Motor for arm rotation
3 - SG90 Servo Motor for box grip
4 - Arduino NANO Microcontroller
    board
5 - TCS3200 Color Sensor
6 - TCS3200 Color Sensor for detecting
    bottom color
7 - PCB for Arm Assembly

The base and parts are made
from Acryllic sheets by laser
cutting method
